LIVING ROOM AT W NEW YORK – DOWNTOWN

FINANCIAL DISTRICT, 646.826.8600
whotels.com

The new W New York – Downtown's aesthetic centerpiece is a 1,260-bulb, color-shifting lighting scheme by U.K. artist Bruce Munro, which creates an effect of rippling light. The glittering spectacle extends to the hotel's real trump card, the spectacular Living Room bar and lounge, complete with a sprawling terrace engulfed by the Financial District's mighty skyscrapers. Sleek, minimalist furnishings don't distract from the knockout views.
